

AMERICANS FOR PROSPERITY

Sign the Americans for Prosperity No Climate Tax Pledge

Americans for Prosperity is seeking signatories to its No Climate Tax Pledge. We are drawing a line in the sand declaring that climate change legislation must not be used to fund a dramatic expansion in the size and scope of government.

If you oppose unrestrained growth of government at taxpayers' expense and hidden under the guise of environmental political correctness, then sign the pledge at the bottom of this page and return it to our office, or visit www.NoClimateTax.com.

Regardless of which approach to the climate issue you favor, we should be able to agree that any climate change policy should be revenue neutral. Revenue neutrality requires using all new revenue generated by a climate tax, cap-and-trade, or regulatory program, be used dollar-for-dollar to cut taxes.

Major increases in government revenue should be openly debated. We encourage you to pledge that you will oppose any effort to hide a revenue increase in an environmental bill.

No Climate Tax Pledge:

I, JASON E. CALL, pledge to the taxpayers of the State of VIRGINIA and to the American people that I will oppose any legislation relating to climate change that includes a net increase in government revenue.
