Americans for Prosperity Applauds U.S. Senator Sam Brownback

-Signs No Climate Tax Pledge-

TOPEKA—The Kansas chapter of the free-market grassroots group Americans for Prosperity (AFP-KS) today applauded U.S. Senator Sam Brownback for signing the group’s “No Climate Tax Pledge.” By doing so, Brownback joins over 180 lawmakers on the federal, state and local levels pledging to “oppose legislation relating to climate change that includes a net increase in government revenue.”

Every Republican member of the Kansas federal delegation has now signed pledge, including: Senator Pat Roberts; Reps. Todd Tiahrt, Lynn Jenkins and Jerry Moran. Local signers include 5 state senators and 14 state representatives.

“The one thing elected officials should be able to agree on is that global warming shouldn’t be used as an excuse to hike taxes on citizens and businesses,” said AFP-KS State Director Derrick Sontag. “We encourage all of Kansas’s elected officials and candidates for elected office to sign the pledge.”

Federal cap and trade legislation took its first steps toward passage recently when the Waxman-Markey energy bill was voted out of the House Energy and Commerce Committee. President Obama has made no secret of his support for a cap-and-trade scheme, which would amount to the largest tax increase in American history. One version of the scheme, introduced last year in the Senate was scored by the nonpartisan Congressional Budget Office as a net revenue increase of \$1.2 trillion within just the first 7 years the bill is in effect.

“Using the guise of climate change to transfer dollars from hard-working citizens to bureaucratic big government is unacceptable,” said Sontag. “Regardless of their stance on global warming, this should be common ground for all of our elected officials at all levels of government.”

The pledge is available online at www.NoClimateTax.com. AFP does not endorse candidates. All elected officials and candidates are encouraged to sign the pledge and go on the record in opposition to using the climate change issue to increase taxes and grow the size of government.
