## **Americans for Prosperity Applauds Virginia Beach City Councilwoman Rosemary Wilson**

*-Signs No Climate Tax Pledge-*

RICHMOND-The Virginia chapter of the free-market grassroots group Americans for Prosperity (AFP-VA) today applauded Virginia Beach City Councilwoman Rosemary Wilson (At Large) for signing the group's "No Climate Tax Pledge." By doing so, Wilson joins over 190 lawmakers on the federal, state and local levels pledging to "oppose legislation relating to climate change that includes a net increase in government revenue."

"The one thing elected officials should be able to agree on is that global warming shouldn't be used as an excuse to hike taxes on citizens and businesses," said AFP-VA State Director Ben Marchi. "We encourage all of Virginia's elected officials and candidates for elected office to sign the pledge."

Federal cap and trade legislation took its first steps toward passage recently when the Waxman-Markey energy bill was voted out of the House Energy and Commerce Committee. President Obama has made no secret of his support for a cap-and-trade scheme, which would amount to the largest tax increase in American history. The non-partisan Congressional Budget Office recently scored the plan as an \$846 billion increase in federal revenue, a burden that will be borne by taxpayers and consumers for years to come.

"Using the guise of climate change to transfer dollars from hard-working citizens to bureaucratic big government is unacceptable," said Marchi. "Regardless of their stance on global warming, this should be common ground for all of our elected officials at all levels of government."

The pledge is available online at [www.NoClimateTax.com](http://www.NoClimateTax.com). AFP does not endorse candidates. All elected officials and candidates are encouraged to sign the pledge and go on the record in opposition to using the climate change issue to increase taxes and grow the size of government.
