

State Senator Sheila Harsdorf

February 18, 2010

Mr. Mark Block, State Director
Americans For Prosperity
1126 South 70th Street, Suite S219A
Milwaukee, WI 53214

Dear Director Block:

Thank you for circulating the No Climate Tax Pledge. I appreciate the efforts and public advocacy by Americans For Prosperity.

The grassroots efforts your organization has taken are commendable and greatly appreciated. While I have been asked to sign pledges on a wide range of issues as a candidate and while serving as an elected official, I have abided by a policy of letting my voting record and my public statements speak to my positions.

In regards to climate change legislation, I have publicly expressed my concerns with the current bill being advanced by state Democratic leadership. It is critical that legislative efforts consider the economic challenges facing working families and businesses and move to enhance alternative energy resources, such as wind power and nuclear energy, rather than rely on new taxes or plans that shift costs to ratepayers. I believe my voting record is testament to my positions on these issues.

Once again, thank you for efforts and advocacy.

Sincerely,

Sheila Harsdorf
State Senator
10th Senate District
